

UD CARES TREE PATROL

Program Description

UD CARES is seeking volunteers to care for newly planted trees in the Township. With the increase in planting since the tornado, we need your help!

Upper Dublin Parks and Recreation staff will get you set up with a work area. The number of trees you adopt is up to you- whether 5 trees or 50 trees, any bit helps! You will be asked to visit your trees 2-3 times from May through October. Upper Dublin will provide all necessary tools and supplies. Your tasks will involve:

- Weeding vines, grass, and other plants from the tree cage or tube
- Straightening stakes and deer protection with a small sledgehammer

Please be aware that these areas may have tall grass or brush, uneven surfaces, and ticks or stinging insects.
